Employee Navigator + Michigan Manufacturers Association

How to Integrate New and Existing Cases

1 Broker builds plans in Employee Navigator and activate them for Open Enrollment

Broker requests the Michigan Manufacturers Association (MMA) integration in Employee Navigator

2

3 MMA will complete any applicable group structure mapping in Employee Navigator

MMA generates a test file. Any discrepancies will be emailed to the broker. After correction, broker will notify MMA that a new test file should be generated.

4

5 If a new test file is generated and reviewed by MMA with no discrepancies, the group goes live. If discrepancies remain, the group will be retested, and step 4 will be repeated.

Group is moved to the “Active” status, they will be incorporated into the weekly file run and data processed accordingly. Any ongoing discrepancies will be reported to the broker via email.

6

No Additional Cost

No PEPM integration cost for brokers with an Employee Navigator license.

No Employee Navigator License?

No problem! We can help you build your account, train your staff and provide ongoing support.
